As our society moves into the 21st century athletics is supporting and developing Competitors for life: Team players that are willing to pay the price; Leaders that will sustain our great quality of life each and everyday. College Athletics is inspiring individuals that understand the importance of teamwork, leadership, competition, and passion.

Career Competitors will fight for our Mission. We were grounded and built on the same principles that fuel our cause “COMPETITORS FOR LIFE.” We will never forget our vision and we will stay true to our objectives.

How does Career Competitors work?

Career Competitors is dedicated to creating the most extensive data base of college athletes and Alumni across the nation. We will work directly with the 1046 NCAA schools, 302 NAIA schools, and 105 NCCAA that support student athletics. Student Athletes and Alumni from these schools will fill out a profile, resume and unique

questionnaire that differentiates' our competitor's skills as an athlete and career professional. We are committed to having a unique look and feel to our resumes that set our athletes apart from the rest of the job seekers.

We will be creating opportunities in five markets:

- **TEAM Network-** All Colleges and Universities across the nation that support student athletics.
- **Competitors For Life-** All Alumni and graduates that participated in College Athletics.
- **Employers and Careers-** An extensive network of thousands of employment opportunities and career options.
- **Graduate Programs-** We will provide an extensive array of Graduate School opportunities for our athletes.
 - Medical School, Master's programs, Law, Dental, Advanced Degrees and many more.
- **Professional Sports opportunities-** We will network with thousands of possible professional programs in the United States and the rest of the world.

By working with and for our student athletes we will be providing them with several opportunities upon graduation and the years beyond.

Why do student athletes need this service?

College athletics is a full time job. The only difference is that it isn't 9:00 to 5:00 or 40 hours a week. Student Athletes have to be dedicated to their sports and their schooling 24 hours a day, seven days a week for the entire school year.

This is what the average day for a student athlete looks like:

- 6:00-7:30 AM- Weights and conditioning
- 7:30-8:00 AM- Breakfast
- 8:00 AM- 1:00 PM- Class
- 1:00-2:00 PM- Lunch
- 2:00-5:00 PM- Practice
- 5:00-6:00 PM- Dinner
- 6:00-9:00 PM- Studying and Homework
- 9:00-11:00 PM- Relax and go to bed, if you're lucky

This leaves no time for activities and functions within the school that help student athletes with their future employment and opportunities.

This is a short list of the many activities that Student Athletes don't have the opportunity to be a part of.

- Acclamation
- Politics and Public service
- Outdoor recreation
- Ambassadors
- Student Activities
- Student Associations
- Fraternities
- Sororities
- Student Government
- Clubs

These are all activities that employers look at when selecting a potential employee.

The Bottom Line- As student athletes we don't have the same opportunities to be recognized in the job field as other students that have the chance to get involved in school activities.

What makes our student athlete resumes different from the rest of the world?

When athletes are beginning their final year of athletics and schooling they will have the opportunity of getting on our TEAM Network of Career Competitors for free. We will have a specific link from our website that will take all schools to their own secure area. From each particular school athletes will have the opportunity of filling out a unique questionnaire that will help us get to know each and every athlete. We will also have information on resume development, interview skills and career options. Their information will be sent to a database where we will be able to find the very best opportunities upon graduation and the years beyond.

Our questions will link athletes to career opportunities, graduate opportunities, and if desired professional opportunities. Our resumes are fully interactive. It will give athletes the chance to differentiate themselves in ways that have never been possible.

Such as pictures, statistics, and even links to professional work you have done. Once we have the information we will be able to quickly develop resumes and start creating opportunities.

How does Career Competitors level the playing field?

Nearly 100,000 student athletes will graduate this year. Less than 1% will have the opportunity to play their sport professionally. What is going to happen to the other 99,900 students that sacrificed for their school?

Some will pursue a higher education, others will take time off, and most will try to find a career that will support their lives.

Many people make the assumption that athletes' at large schools playing in popular sports will be handed great jobs at nice businesses simple because they participated on a final four team or in a bowl game. Maybe that's true, maybe it isn't.

At Career Competitors we are not concerned about where you come from or who you played for. We are more concerned about who you are and what you stand for. We value hard work and dedication far before popularity and notoriety. We value great ideas, and tremendous people. If you have given your best, we will give you the world.

Career Competitors is dedicated to leveling the playing field. We will give every deserving athlete the chance to showcase their abilities on a national stage. Whether you play for Grand Canyon University or Duke, you will have the same opportunities.
